

PRO LINE

CAV FP3535/CAV FP4040

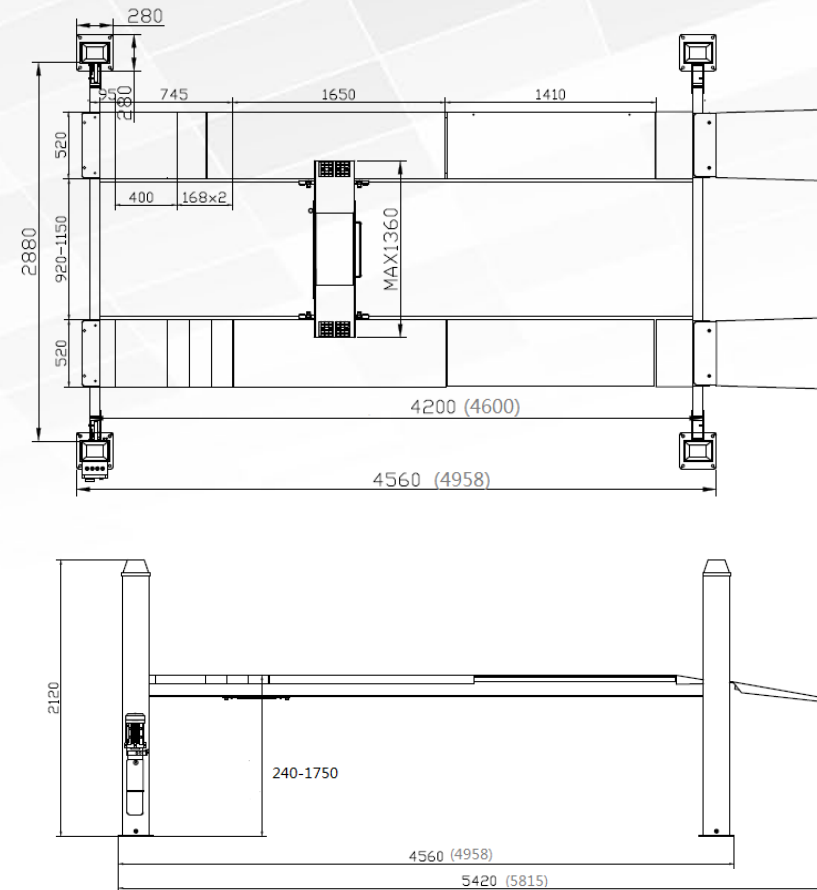

4-Post Alignment Lift

4000 | KG

Overall dimension

Highlights

- 4000kg (9,000 lb) capacity, 2 different platform lengths to choose
- Multi-position safety locks in each column
- Single point lock release
- Removable approach ramps for additional drive-under clearance
- Longer approach ramps for low-ground clearance vehicles
- Durable powder-coated finish lift
- Second-rise jack comes as standard inclusion
- Each lift passes the test of 115% dynamic loading and 150% static loading tests, safe and reliable
- Turntables for alignment is **optional**
