

EXPERT LINE

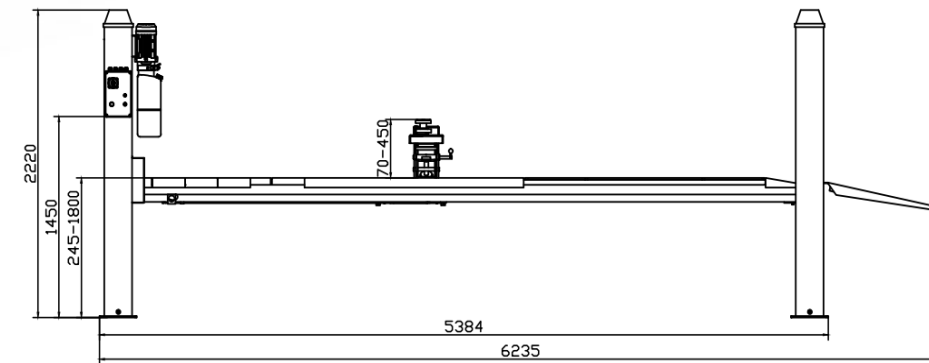

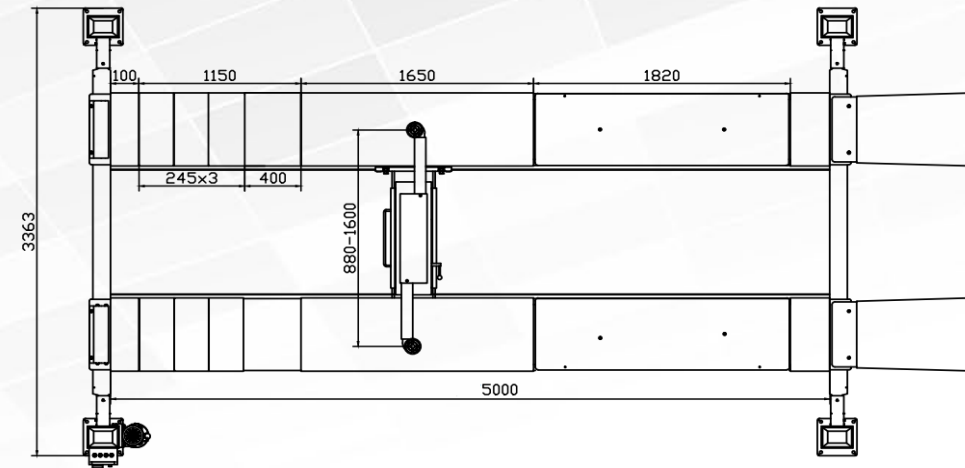

CAV FP5050

Overall dimension

4-Post Alignment Lift

5000 | KG

Highlights

- 5000kg (11,000 lb) capacity
- Multi-position safety locks in each column
- Single point pneumatic lock release
- Removable approach ramps for additional drive-under clearance
- Longer approach ramps for low-ground clearance vehicles
- Durable powder-coated finish lift
- Second-rise jack comes as standard inclusion
- Each lift passes the test of 115% dynamic loading and 150% static loading tests, safe and reliable
- Turntables for alignment is **optional**

Technical

	CAV FP5050
Capacity	5000kg
